

CHRONICLE N°9**Has the last Apocalypse's trumpet
finally rang the end of the ancient world ?**

Probably having fallen off the turnip truck, the ordinary human only seems to start to discover the gangrene's stretch which gnawed at the ancient world. Over all of the global society's stratum, corruption is brought to light. At last, it was time ! Hitherto unseen information about a paradigm change is henceforth confirmed everywhere !

In order to express this precise moment within humanity's cycles, religions talked about the Apocalypse, about revelations having to do with the end of times. Certain amongst us knew that this story's transcripts, and finally whatever the cult, relate more or less historical events. Even though they have been altered or interpreted by the scribes and translators, they could supply a few glimpses of the circumstances which have marked life on Earth since the Creation.

Much too easily discrediting the deep and hidden meaning of these eschatological texts, the scientific, historians and ordinary savants, could have incidentally found in it certain clues concerning the chronology of the current disruptions.

However, the real meanings of the Service to the Self, of the Service to Others or of the word "Christ", or of "dead as a Christ" are never featured in these writings. If the temporal travelers of Roswell had not been able to inform certain individuals about it at the time in order to bring us to understand their meaning, nobody would have been able to have the

knowledge, today, of the “secret of the gods” and discover another truth about our planet’s history. In other words, nobody would know the origin of the energetic duality of the polarities of “good - positive STS” and of “evil - negative STS”, which prevail in our reality !

Let’s take the end of times’ key events which are described in the Bible for example. It is notably related that Jesus the Christ - crossing the “Jordan” with John the Baptist (who announced Christ's arrival) and the disciples -, received the “secret of the gods”, symbolized by the baptism of the **Holy Spirit**. Then, going back to Jerusalem under the people’s ovations, he was betrayed by Judas, one of his own, in order to then be crucified.

Those who have had the chance to read the works of Francesco Carotta or of Gary Courtney in english, or who have taken note of Laura Knight’s searches, or even who have educated themselves through the LEO Network, know unequivocally, that the myth of Jesus the Christ would be to overlay to Julius Caesar’s destiny.

As Julius Caesar, crossing the Rubicon river on January 11, 49 B.C (“ruby” making reference to the red color and to blood and “con” to the feminine Spirit), is acclaimed by the people on his return to power in Rome. However, he will be obliged to establish a dictatorship in order to re-establish the order. Then, betrayed by Pompey, he will be assassinated five years later, just like the biblical Jesus-Christ, by Marcus Junius Brutus, a **republican and his accomplices**, on March 15, 44 B.C.

Nowadays, after that the American elections of November 2020 have been falsified in favor of the democrat Biden, would it not be Donald Trump’s turn for whom is outlined a similar scenario, that is to say to come back on the stage in order to re-establish truth and in order for this sort of prophecy to accomplish itself ?

Would the Apocalypse’s last trumpet rung by Donald Trump, not also be his last master stroke ?

Let’s see what the name Donald Trump means on an etymological level :

Donald is a Scottish name, which comes from the Gaelic Domnall, Dumno-valos. Dumnos coming from the proto-celtic “world of the bottom” and Valos “the one who reigns, prince, sovereign” ; in short, the one who reigns over the world of the bottom, or the prince of the world of the bottom !

The word “Trump” stems from the ancient french Trompeur the “trumpets’ creator” or trumpet player.

Do you perceive the retrocausality loops and Trump’s role in this great cosmic game ?

In order to re-establish order and truth, would he not also be obliged to appeal to the law about the insurrection and his armed militia, in order to knock the democratic traitors over who had falsified the elections ? Or will he also end like Julius Caesar, betrayed by the republican Judas, those whom he thought were part of his group, however, who persisted to remain ignorant of the secret of the Gods ?

Even if, just like Caesar, Donald Trump had to pay out of his life for having wanted to unveil his truth, he will have revealed to the world the schemes of all of these deep State’s “demon-crats” betrayers. These latter ones, will be forced to repeat a complete era of reincarnation of 3rd density, or to disappear recycled in the universe’s black matter !

We often said, what is happening within our planetary reality has to do with a demonic ideology, and can not be imagined by a human being’s spirit. And it would be for this reason that everywhere in the world, it is the psychopaths, the individuals with no consciousness, who hold the political power’s reins.

In this way, the temporal line interpreted by Trump, inscribed within the 3rd density matrix, prefigures a retrocausality loop regularly appearing in humanity’s chronicles. We therefore can not miss history, as what is currently happening, has already happened ! Would it then be a new omen ? As a christian, Trump should have finally understood ! And we know that he is starting to understand !

Just like the “biblical Jesus Christ” or the Roman Caesar who had caused certain conjunctures in order to oblige the Judas of the deep State to unmask themselves, will he also one day or another, have to leave the political scene, if he does not want to end up like them ? If he possesses this knowledge, why would he oblige himself to “see-it”¹ ?! Is it not so that we can also see-that, this means, see the terrible truth, to see the demons’ faces who govern our world ?!

¹ The author uses as usual the language of the goslings in order to decrypt the hidden meaning of words. In french, “savoir” stands for the english word “knowledge”, and in the language of the goslings “savoir” can be decomposed as “sa-voir”, literally meaning in english language : “it-see”. Therefore, the author questions the reader by saying : “If he possesses this “sa-voir / **it-see**”, why would he oblige himself to “**see-it**” ?!”.

Henceforth, everyone knows that just by subtracting the frauds, Donald Trump legally won the popular vote, as there only were Democrats and Republicans competing. By the way, strangely, no other political party, libertarian, moderate, green, centrist or environmentalist, was represented in these elections ! Theoretically, the United-States' Court should decree, in order to respond to the countless filing of fraud complaints. But, will it ? Who will be the demons who will operate the arm of its justice ?

Based on the Actus Reus and Mens Rea principle, American criminal law should however rule on the elections' validity, which would take a long time and would still benefit Trump, as he still remains president for the moment !

Generally speaking, for an individual [or a group of individuals - in our case the "demon-crats"] to be convicted of a criminal offense, he must have committed the illegal act (actus reus) and have the requested state of mind (mens rea) to constitute the criminal offense. The Court therefore must establish the two elements of the offense, namely actus reus and mens rea, beyond a reasonable doubt :

- Actus Reus : even hidden or camouflaged, the gesture was committed !
- Mens Rea : who benefits from the crime ? Criminal intent is demonstrated by vote rigging, confirming the actus reus.

<https://ojen.ca/fr/ressource/en-resume-mens-rea-actus-reus>

In this context, arrests of fraudsters would begin before a new secure election is decided, probably scheduled for March 2021. However, since the misappropriation of votes is not a criminal matter, it would be Congress that would have to appoint the president and vice president of the United States, since each state would delegate a representative and a vice representative. In principle, one of them should be elected president and vice-president of the United-States.

Necessarily guarantor of the protection and defense of the country, it must be known that in any case, the American army should never tolerate that traitors to the nation like Biden and the globalist democrats win other elections. Will the American army join the militia, in the sense that it would refuse to obey the power in place and would do the cleaning itself while waiting for new reliable and fair elections ?

If this were the case, it would be over for the western globalists, since this procedure would probably suspend for some time, most of the Internet communications driven by the Microsoft and Google cyber-systems, associated with Bill Gates and the globalists. But, it will also be over for those of the two camps who still do not understand the secret of the universal Consciousness : the Truth of the Law of ONE !

Not being directly involved in the United-States' karmic loop and equipped with its own computer system, Russia would step out almost unharmed from this cyber-bug in the STS matrix. The digital and cybernetic world war would then be aborted without a single cannon shot !

Meanwhile, the current times are still very confused, the "anything and everything" insists on making the front page of every new day, as the globalist psychopaths feel the end of their show coming nearer - the heads of State just like Macron or Merkel, only being a few of the European specimens of these parasites which are mediocre and weak amongst most of them and who convulse at the head of their respective government. These puppets of the elite affiliated with the ruling deep State, no longer know how to conceal their damning compilations of incompetence and betrayal. And despite their masterful impostures and hypocritical games, nearly half the population still believes and supports them.

This deplorable situation overwhelms these ordinary individuals who make up this half, and accuses many more who think they know. These naive people persist to believe that the situation will resolve by itself, without any effort or sacrifice on their part. This is because they still do not really understand the magnitude of the danger that is approaching after the fake "Covid pandemic".

Since these puppets are themselves directed by a superior command composed of entities or intelligences of 4th density, which itself has placed Trump in power in the place of Hillary Clinton so that the end times can be resolved, we must really understand that, whatever the "much too carefree and confident-in-the-future-like" people do or think, the deep State's elites will not allow anything or anyone to alter their plans, as this would compromise their mission which, despite what we might think, is conform to the Law of ONE.

https://www.lepoint.fr/insolite/donald-trump-elu-president-les-simpson-l-avait-predit-en-2000--10-11-2016-208200_48.php

And it is precisely because they are untouchable, that they henceforth proceed exposed, proudly displaying their membership to Aryan Zionism or to Satan's Church. By clearly stating their intentions through host institutions, such as Davos' World Economic Forum (WEF), the Council on Foreign Relations (CFR), by passing by the Bilderberg group and the Ford, Rockefeller, Open Society, etc, Foundations, all of their plans are clearly revealed to the one who wants to try to understand. Their attitude therefore is quite logical !

<https://fr.sott.net/article/36352-L-agenda-secret-de-la-Banque-mondiale-et-du-FMI>

In a period of very profound change, as it is now, and contrary to what we would like to believe, the behavior of these elites is therefore very wise, thoughtful and extraordinarily sensible. Let us not forget that they are puppets driven to act like this and make us take

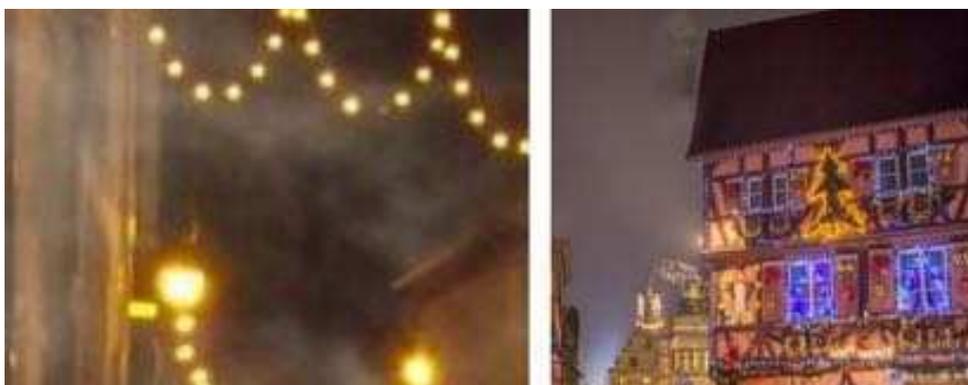

our bladders for lanterns. They cannot therefore act otherwise, since they are propelled to operate from now on by excess, exaggeration, excess, in order to offer a chance to each of the eight billion humans that inhabit the Earth, to wake up to change of density of reality !

As we write this text, and we raise it every year, the "bladders" of Christmas decorate the streets of cities again. Even artificial intelligence technology has become necessary to pilot these thousands of kilometers of electric garlands and drone shows.

<https://actu.orange.fr/societe/videos/nouvel-an-en-ecosse-le-spectacle-magique-de-centaines-de-drones-CNT000001vY8uR.html>

As incredible as it is, people still believe in Santa Claus, the little Jesus in the manger and all that follows ! They therefore feed passionately on falsehoods, voids, lies, illusions, futility, and thus on nothing. They have no interest in the truth ! And this, from the "top of their densities", the entities of the astral and the higher planes know, since they see it !

(In ancient traditions, the "El" particle in the singular, is a Hebrew word derived from Eloah which designates "God" (from the Elohim word in the plural). **Therefore, "El" is a pronoun attributed to the Spirit of God.** Therefore, celebrating Christmas (NO-EL² in

² "Noël" is the french word for "Christmas". In the language of the goslings, "Noël" can be decomposed as NO-EL as it is explained just above. In our case, symbolically, "El" is also a word which means "Angel", directly referring to the teachings of the Angel shared through the Dialogues, the Notebooks and the Chronicles. Therefore, celebrating "No-El" is also a way of agreeing to the Predator's mind, and to refuse the strength of the Superior Self, our inner Self, also known as "The Angel".

french language) literally means celebrating the negation of the divine Spirit, and expressed by the metaphor : “to pull the devil’s tail” !)

<https://michaellanglois.fr/questions/que-signifie-elohim-y-a-t-il-plusieurs-dieux/>

Moreover, if people were informed and aware of the satanic origins of Christmas, they would certainly no longer have fun celebrating Saturn, Moloch, Nimrod, Chronos, Baal, Satan, etc, all of these fire demons, children eaters that they disguise as Santa Claus !

See : Christmas’ satanic origins :

<https://www.reseauleo.com/les-origines-sataniques-de-noel-video-humour/>

This ancient world of "gleaming vessies" and brilliant illusions does not want, and cannot disappear, since stupid and ignorant people still prefer to cling to their lying traditions, instead of seeing their daily life as it is, and as it agonizes in his vain setting.

No wonder that by pulling this Santa Claus devil by the beard, these ordinary fools trigger the forces of the Apocalypse !

See the meteorological conditions - Summary of the month of November 2020 - SOTT :

<https://www.reseauleo.com/conditions-meteorologiques-resume-decembre-2020-sott/>

As often during the Christmas "truces", the political representatives insist on allowing ignorant people to continue to be trapped by the illusion of false lights, and there no one reacts, everyone is happy to play the game !

Would it be a coincidence, then, if the second lock-down was lifted so that people could continue to celebrate the lie ? **Certainly not, since Christmas (No-EI) is a very fruitful and interesting ritual for satanists, in order to supply more their evil gods with energy !** As on another level of the "governing reality", the elites of the Illuminati Establishment never being replaced, the intentionally unresolved problems that our society is continually facing, persist !

Christmas has therefore been celebrated every year for a millennium, as it represents an entertainment for the masters of illusion ! The current chaos that the period of Christmas grossly conceals under all of these sparks and scintillations, is the direct result of a subversive and perpetual power which serves the interests of a minority elite of psychopathic demons, rather than those of the people.

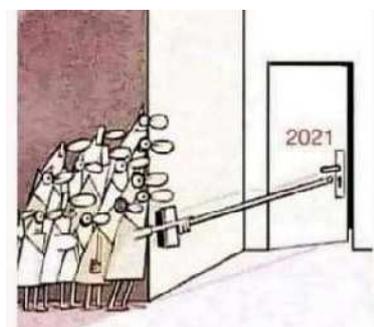

Our society's decline towards totalitarianism and tyranny will therefore never end, as long as this subversion persists and the people who underpin it and those who remain attached to it, have not disappeared. Yet, the people are unhappy with their miserable existence, but by their false beliefs and their lack of quest for truth, they consent ceaselessly to leave aside their free will so that the game can continue !

See the "Planet Lock Down / planet's bolting - the door is not closed !" video :
<https://www.reseauleo.com/planet-lock-down/>

The hidden goal of our lying elites and of those who direct them, as well as all of those who behave like them, would be that in every ordinary individual's psyche, after the revelatory Apocalypse has finally demolished this world of money, corruptions, lies and illusory lights ; rebirths the idea that love, peace and abundance and the whole fuss, will soon reign on Earth.

Should this individual not begin to realize that after the "Co-vide" (Co-empty) and "No-EI", he should expect and fear even greater future troubles ?

As what this Satanist Illuminati Establishment has planned for these ordinary people, is even worse ! ... However, as usual, not seeking to understand and continuing to disempower himself, this ordinary individual will prefer to return to his cave to continue sleeping !

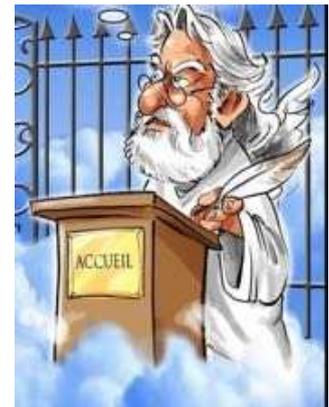

The bait is set, there is imminent danger for ordinary sleepy-heads !

How many among the people will fall into the trap set up by the STS of 4th density who, suggesting that the New World Order plans have been aborted, invite “to” NO-EL towards a new Golden Age cycle ? Probably more than 98% of the world's population !

We have warned many times that the new Golden Age simply means the return of the ordinary human population in a 3rd density reincarnation cycle, intended for the people who have still not understood the gravitation laws, karma, the universe's laws..., and organizing themselves their famous retro-causality loops which force them to reincarnate indefinitely in 3rd density worlds.

However, for the deep State's agents, the dice being thrown, it is better to pretend to resist, since in any case the world will be destroyed and the function of jailer of paradise is already dedicated to them.

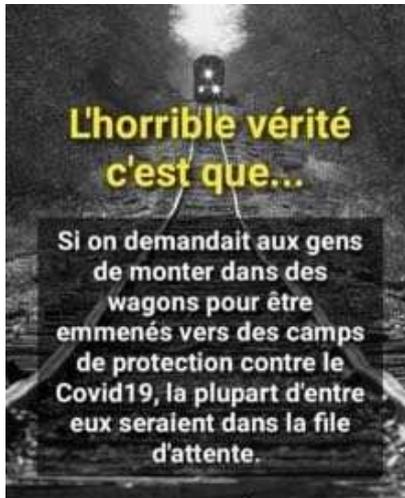

Indeed, as some already understand it, these elites of the deep State only are psychopaths, people without soul, nor consciousness, openly displaying their submission to the Lizzie gods or 4th density STS Lizard. While most of the high level politicians, their intelligence parasitized by that of the Nephilim, prove to be genuinely mentally ill.

The deep State's elites start to show their true face. Therefore, for the one who already knows how to “see-it”, very few things will still remain secret.

The entire humanity is already engaged in its metamorphosis for a new world's evolution cycle in 3rd or 4th density, and nothing can stop this progression.

Nevertheless, every individual who is healthy in body, soul and spirit, will have to decide for himself this choice, otherwise others will do it for him !

The horrible truth is, if you asked people to get into cars to be taken to covid-protection camps, most of them would be in the queue.

Therefore, whether Biden is named or not, whether Trump has all the traitors of the deep state arrested or not, whether the terrifying Macron and his sinister ministers are deposed or not, whether Professor Raoult surrounded by his barely pubescent researchers, Fight against a pseudo-virus or not, **no one will change the big change !**

Because whether it's Trump, Raoult or the others, all of them play the same score ! They, like the traitors within the deep state such as Biden and his acolytes, Bill Gates, Klaus Schwab, Merkel, Macron, and like all these psychopaths of Aryan Zionism, they all have in common the same conductor : a hyperdimensional corpus composed of Lizzies, Dracos, Kingus, Greys, Nephilims or other 4th density Service to the Self entities ! **And all of them, without exception, evolve under the aegis of the Law of ONE !**

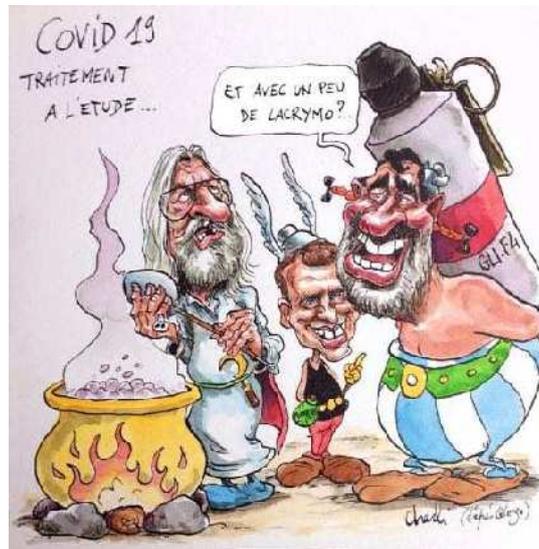

The doctor with his medicine is the answer to all of the illnesses, that is obvious ! Especially when his solution emanates from a savior's aura ! Honestly, who would have thought that all of these so intelligent, so cultivated eminent people, would allow themselves to be trapped by their own lies and would be trampled by a co-vidés/co-emptied's herd ! *(The co-vidés/co-emptied being a new breed of humanoid mammals of the future, having never sought to rise to a new level of evolution !)*

Since I tell you that I'm the Messiah...

In view of the present situation on our planet, it is therefore indisputably easier to expect that these "angels of light" for the blind, these individuals inhabited by the madness of

greatness disguised as benefactor of humanity, carry out the work in our place. They are so full of love and compassion ! Isn't that right ? Each of them defending himself from wanting to save and heal the human beings with his own remedy, and in his own way !

Treatment under study...
And, with a little tear gas ?

These pseudo-angels, triggers of the Apocalypse, despite themselves, also see the danger come up, the risk of division, of death, of end, of destruction. However, convinced of their mission to liberate humanity, they will not abandon the world to this sinister end that is already looming on the walls of their daily lives. Do they also believe that it would be enough for them to not let shadow, the evil win, for the light, the good to grow ? Masterful illusion ! Wouldn't this scenario, beautifully proposed by the STS of 4th density, clearly send all these people into patterns of "light against darkness", of duality proper to the 3rd density worlds ?

Obviously all these people, deluded by their outer world, chained by all these irons of hell, still believe in it !

We also know that in the current 3rd density world, it is precisely because of the intellectual motivation or the individuals' altruistic orientation, that corruption has found its flaw, so that predatory plans can find a gateway and penetrate the human psyche.

How many people, because they wanted to do good by saving the oppressed, let themselves be caught up by the need for money, sometimes of a lot of money and finally, exhausted or had been deceived ! The lure of gain to validate and then expand their charities, had definitively trapped them !

Obviously, in a 3rd density world to the Service to the Self, and without being aware of it, all these benefactors of humanity and their foundations, let themselves be caught up in

the gear of money and power over others ! For these fake humble or glorious characters, admired by the people to whom they hijacked their money to help the so-called humanity's progress, have offered their soul to the devil by "tacit consent" and have become very rich, powerful or famous. Bill Gates, the Clintons, the Vatican's pontiffs, Mata Amritanandamayi (Amma and her foundation) and so many others, are among them. Most of them have been used as entry points for abject children's trafficking, human beings or other types of corruptions.

Didn't they know that hell is always paved with good intentions ?

Although sometimes legitimate, fear and ignorance eat away the naive individual. They paralyse him, make him clumsy, stupid, lazy and weak. And that's how ignorance leads to peril. Whereas if he could overcome them, the anguish, the fright, the sufficiency, could make him more courageous !

What doesn't kill us, makes us stronger, says the adage !

Frankly, for those who want to shine, the appeal of the STS world, that is to say comfort, money, power... , is infinitely easier ! While the quest for Knowledge is free, it requires discretion, perseverance, true Faith, a lot of courage, a great deal of simplicity, and above all, great intimate wisdom !

In 3rd density, the altruistic fiber of the human becomes often and very quickly interested. However, the interest is by no means the Service of Others. At that moment, the "interested" altruism still only comes under the Service to the Self ! It could nevertheless be the beginning of a true ministry of the Service to Others, if it were not corrupted by the need for money and if its ideal was truly impregnated in its psyche.

Then, would not corruption come from the human being's depths who, persisting in remaining satisfied not to "see it" and not to "know anything", is content to remain indecisive, fearful and submissive, in order to be content to stand still and to survive obediently to the illusion ?

In the end, the true human being, the one of the future who has made his way through the Alice's narrow rabbit-hole - or who has passed through the eye of the needle for the one who prefers this formula -, will truly be elevated to the stage of a fundamentally altruistic creature. He will have laboriously raised himself to a new level of the human being's evolution, in order to reach the worlds of consciousness of the Service to Others.

This, because then emerging in another world on the other side of the rabbit-hole, he will have truly worked in order to understand how to forgive all of these "illusionists" taking themselves for "angels of light" who wanted to save humanity. He will since then understand that he will not either be saved by this "unfortunate Christ" nailed on his cross, or by any extraterrestrial saving entity, intervening in his outer reality !

Question to the Angel :

Even with the best will in the world, the wisdom of the ordinary human, will one day become virtuous enough to be able to get out of this mess and not to let himself be caught up in the trap of 3rd density ?

What you name ordinary humanity corresponds to a defined period in the progression of its collective consciousness. However, among this "ordinary" collective consciousness, each individual will sooner or later be a candidate for the 4th STS or STO density, according to his soul's orientation. And if it is not in this cycle, it will be in the next one. Maybe even on other planets.

To do this, he must, like you, very actively seek his true identity, know how to detect psychic intrusions and recap the cursus of the soul ; in short, seek true Knowledge ! It is for this reason that all information relating to his existence's cycle is always recorded somewhere.

In the current cycle, they are, either by the decoding of certain artefacts recorded in books, or disseminated on the Internet. In the previous one, they were engraved on clay tablets, in the rock, on ancient monuments, on megaliths, or hidden in tales or oral traditions.

But to have access to the real and objective information in this fantastic track game, you had to be able to discern the true from the false, by learning to trust your perception and senses, your discernment. It is moreover because you have been led to gather them in this way, that the last chronicles of the Angel increasingly resemble a compilation of information worthy of interest, collected on the net. While in your declining 3rd density world, almost all of the easily accessible information, freely, spontaneously or simply, has been progressively made more and more difficult to access or corrupted. The messages deserving of the researcher's interest have been hidden under a kind of screed of lies that are increasingly hermetic and difficult to explore. You then had to search through millions of data to find a guideline that would make sense.

This cloak of lies is due to the perversion of the human mind, stemming from the fact that there are fewer and fewer incorruptible, frank and honest individuals, and more and more fearful, undecided, malicious, corrupt, unworthy or deceitful individuals. Because the first goal in their lives is either to try to get rid of what causes them worry or fear, or to earn money and accumulate material wealth to feel safe. And specifically in your world, honesty as opposed to dishonesty, are the two types of attitudes that are revealed by or because of the two polarities of energy that are expressed by the law of duality.

Discernement il te faudra

Discernment you will need, the awakening in you, you will unlock, but for that, many misguided concepts you will have to unlearn !

These two principles have now reached the pinnacle of their expression, for example regarding the conduct of presidential elections in what has been the most powerful nation on your planet. It was the most powerful because some of its states sponsored the most corrupt people on the planet. The latter were descendants of those who still carried the genetics of STS psychic entities (the Nephilim or Elohim) which, some 12,000 years before your era, had already ransacked the civilization of Atlantis.

What is happening right now in the United States is therefore the karma of those entities and all those who, by tacit consent, had let them do it.

Question to the Angel :

What are we to understand about the elections in the United States, knowing that they have exposed the most gigantic of impostures, not only to the American people, but to all the nations of the planet ?

It is precisely through these kinds of questions, that we have been redirected on the Internet in order to compile in the form of a dialogue, the following information :

Although there are also oppositions between light and darkness on other planes of reality, the two polarities STS- and STS+ should coexist naturally, in a fairly balanced way on your 3rd density planet. Which, obviously, is no longer the case at the moment.

We therefore should remind you that usually, the hyperdimensional entities of STO orientation, never participate in earthly conflicts. However, if required, as at this moment, they allow themselves to offer their help, in order to restore a certain balance of forces on your planet while refusing to interfere in the human being's free-will. It is therefore through the psyche of certain "deeply determined volunteers" and by recombining their genetics with new codes released by the cometary viruses, that by resonance effect, this reprogramming gradually modifies the genome of those who choose to participate in the consciousness change and to the genesis of a new earthly reality.

Of course, the current change in the human genome is triggered by "natural" viral outbreaks and not by genetically modified viruses such as H.N., Covid, SARS, etc., which they, are only attempts at genetic hybridization to corrupt the primary function of "natural viruses". The cometary viruses are then nothing but encapsulated DNA or RNA codons transported in the cometary dusts from dark matter, antimatter, non-time, which are disseminated in the human being's genome at each end of the cometary cycle.

For the volunteers, except sometimes a good fever with no consequence, their contamination is almost asymptomatic ! Viruses therefore are indeed thoughts-forms which come, not from an already realized or inscribed future, but from a future potential "to be created", by allowing it to be realized and densified by the laws of gravitation.

Therefore, it only is specifically these pioneers who accept to be re-encoded by the planner entities, who can understand how to become co-creators with "themselves" (this means with their higher and future Self) on this temporal line of a new world to be created and which is destined to separate from the ancient one in decline.

As what is below is just like what is above, the gigantic fraud in the American elections symbolized this disequilibrium in your world. It represents the ultimate battle of light against darkness, also indicating that it takes place on higher planes of reality.

To outline this struggle, you should know that there are mainly only two large groups of individuals in the United-States that are linked to two rival STS corpus of 4th density. Their rivalry results in 3rd density by the existence of two camps, the one for Biden and the one for Trump. Simply because one is encouraged by a group of ignorant individuals, and the other, supported by another community of ignorants individuals.

The Americans then represent a sample of the ignorants' global population who "apparently", almost makes a half-half choice. However, the vision of this precarious balance is a perception of the corrupt conventional media and themselves candid, who would make you believe what you should believe.

You now know that the Democrats, this means the pro-Biden, are seeking to rule by force and power. They are of those beings who impose the "cracy" (suffix from the Greek **κρατία**, power/authority) on the people (from the Greek "demos") by force. They therefore are the lineage of the god Enlil, the satam : the territorial administrator of the gods in the Sumerian tradition, this means Satan, of whom Klaus Schwab is manifestly one of the high dignitaries.

Klaus Schwab, one of the dignitaries of Satan's Church at the Davos conference.
Would the members of the deep State begin to reveal themselves ?

The elites orchestrating the New World Order, henceforth act with impunity, because they know that ordinary humans remain infinitely more likely to seek help from the system (the administration/State/authorities), than to resolve a problem by themselves. And it is precisely to force as many humans as possible to ask him for help, that through Klaus Schwab's project, they will be offered the Great Reset ! At least, this Great Reset will be the first post Covid control beacon.

See the following article : Klaus Schwab and his great fascist reset :

<https://www.reseauleo.com/klaus-schwab-et-sa-grande-reinitialisation-fasciste/>

As we have already discussed, they will first try to organize the replacement of all the world currencies by the Phoenix. Then, other equally stupid and austere measures are planned to be introduced.

<https://or.fr/actualites/the-economist-preparez-vous-monnaie-mondiale-2018-1179>

<https://www.youtube.com/watch?v=1OuzxuXkGpg>

So, a question is henceforth to be asked : is the Great Reset not first of all intended for those who prefer to continue sleeping ? Or are there still other scourges for the following ?

After all, will this Great Awakening already be for all ?

It is now a question of understanding that the American elections are one of the great battlegrounds of the Third World War, which is nothing more than a cyberwar : a great war operation in cosmic space and cyber space that aims to destroy the consciousness of the human mind and the sovereignty of his thought. Hence the Space Force's creation in America (the US Space Force) <https://www.nouvelordremondial.cc/2020/12/21/le-personnel-de-la-force-spatiale-porte-le-nom-de-gardiens-de-la-galaxie/> and the Air and Space army in France. <https://www.youtube.com/watch?v=AqFPsiU-J-o> ,

L'armée américaine aurait volé le visuel de la série « Star Trek » pour sa nouvelle force spatiale. Mais à bien y réfléchir, n'est-ce pas plutôt l'inverse ?
Par Quentin Poncelet

... as well as the establishment of military units specialized in computer science and in the reprogramming of the human psyche by Artificial Intelligence. (Idem in other countries...)

You now know that the democrats would like to rule by force and power. They represent the great banking corporations of the blue blood royalty, the descendants of the Nephilim giants, whose plan is to eradicate nations, states and peoples, in order to build **one single nation with one single power : theirs !**

This power, set up through terror, will then lower humanity's resonance frequencies to the extreme. And they will do so for a very good reason, for the Zionists expect to see the gods Nephilim/Elohim, Lizzie and so forth, arise through the dimensional portals, somewhere in the Middle East. (cf. Chronicle n°7 : An alien invasion, the next plan's stage ? <https://unfuturdifferent.jimdo.com/chronique-7-sand-jenael/>)

And to strength and power will then be added the spectrum of so-called obligatory treatments via RNA vaccines, which will slowly kill many people, a few months after their injection...

... or either the one of the treatments with SARS-Covid-inhibitors, such as medicine like ivermectin or hydroxychloroquine (as suggested by media propaganda), but also through immunisation campaigns using other serum based products, nearly containing only liquid crystals' nanoparticles.

These latter ones, without side effects after injection, will make the supporters of vaccination say that finally, it had not been so dangerous as that ! But the damage will be done ! As these liquid crystals' nanoparticles contained in these pseudo-vaccines have many other functions, far beyond pretending to cure patients of a pseudo-Covid-virus, since this one remains only a mutant chimera invented in secret laboratories of the CIA.

According to the Cassiopeaens session of the 31st of December 2020
(<https://cassiopaea.org/forum/threads/session-31-december-2020.49951/>)

Q : (Joe) Dangerous in terms of increasing the chances that people will get sick, or have some kind of... What's the danger from that kind of vaccine ?

A : Messing around with DNA is iffy at best. Because of genetic recombination, each individual is unique. The purveyors of vaccines such as this have not well considered that some individuals might be transformed into mutation and amplification and mass production factories or something way worse than Covid.

According to Wikipedia : (<https://en.wikipedia.org/wiki/Nanoparticle>)

The fast diffusion and the nanoparticles' commercialisation reveals grand economical and technical hopes, however also new questions on the emerging risks for security, health and environment, within a context of yet very incomplete scientific knowledge.

As a physical or chemical alteragen, they are essential pollutants of all of the environments (air and water, however also earth and trophic network, via bioaccumulation), that being alone, in group or in synergy with other pollutants. They often are much more toxic and ecotoxic than their homologues of a superior height. And they easily penetrate the microbial, fungal, vegetable and animal organisms. Certain nanoparticles, in contact with air, are furthermore a source of explosion or fire risk.

This being, the Great Reset's programming has been underway for over a year. And recently, thanks to artificial intelligence and the Internet, its launch began by sowing chaos in the US electoral process.

This masterstroke allowed the fraud to be expressly so gigantic that it could only be seen by the whole world. This diabolical strategy of the illusionist who masters the art of mystification and decoy, is imploding the entire planet so that no one, even the people who revolt, can defend themselves against the demonic planning of the Great Reset.

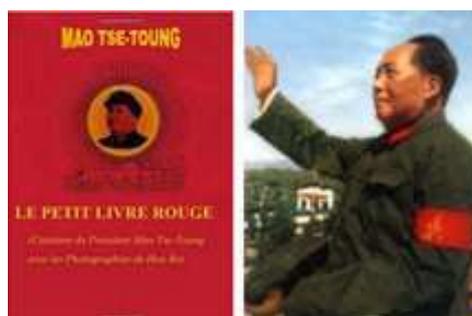

The result of this clash between these different groups of elites, that is to say the bankers and royalty against the nationalists, has already put the technocrats out of play. As a result, there are alliances that are made and broken between the different factions. The big pharmaceutical companies that were tied to the technocrats to advance their agenda, had to change strategy. Bankers Rothschild, with Macron in their pocket, want to rush the programming of this Grand Reset, whose Covid had only been a pretext for its implementation.

There is, however, a single world government which consists of various hyperdimensional and spiritual influences, and which will not allow a president like the one of France to follow his own path and become sovereign, as Macron and his Zionist democratic allies are still trying to achieve.

So, since the elections in the United States, a great movement has been created for the recognition of the true result of the American election which would reveal a resounding victory of Trump, the Angel Savior ! However this movement which calls for justice, only is an ultimate convulsion which this global government does not care about. Because there is a very good reason for its “quietism” that only a few people could understand !

Also, the general public is only beginning to know the Q.anon organisation. It would seem to symbolise an awakening movement of people who want things to be different from before. These people are not campaigning for Biden or Trump to win the elections, but they want the people to stop waging war on the rest of the world after the counting. Because obviously, Americans are fed up with conflicts around the world, in which their loved ones around the world are massacred or disabled. As the 20th and 21st centuries saw the United-States in war all the time. But the general public does not yet know that, mandated by the Deep State, their special forces often served as intermediaries to execute certain operations under false flags, that is to say in the name of someone else ! And it is the bankers and the blue blood royalties who, for hundreds of years, have been pulling the strings of this game.

Their last major move was the creation of communist China. It was therefore the Rockefeller bankers and the blue blood royal communities, who dictated the quotations of the Little Red Book and financed the rise of MAO from 1949, therefore creating, in the prospect of a collapse of the Soviet Union, an artificial enemy invented for the United-States.

But Putin did not fall for the trap. He was smart enough to change the plan of the royal bankers. It is also because he anticipates events to which he will refuse to participate and knows what the ignorant do not know, that he too, like Trump or Macron, will probably leave the political scene, officially for health reasons.

That said, in order to return its military and economic autonomy to Russia, it secretly created the Space Exploration Department and encouraged the development of advanced health technologies, still unknown in Europe. Russia even developed in its own computer arsenal, an Internet system which, if it was necessary, could be instantly disconnected from that of the rest of the world.

On the other side of the Pacific, the United-States had signed the mutual cooperation's anti-BDS law with Israel. (Boycott, Divestment and Sanctions.)

<https://www.bdsfrance.org/israel-revele-quun-qdepartement-de-delegitimationq-espionne-les-militants-du-boycott/>

Under that act, the State of Israel shared all its technological innovations with the United States. As a result of the races, Israel having secretly established other alliances, notably in the Middle East, sold these innovations to the enemies of the United States. This diabolical dupe game served the military-industrial complex, which regularly asked the Congress to find finances from the bankers of the central Bank of the United-States, in order to develop new weapons' technologies, on the pretext that their opponents' defense systems had technologically caught up with them !

In another field, the chaos being methodically elaborated by the "blue blood" royalties and their bankers, they have recently joined the pharmaceutical and technocratic corpus in order to advance the vaccination's agenda against this pseudo-Covid, as the tool : the liquid crystals' nanoparticles' technology, has been around for some time in their secret laboratories.

The technocrats of the United Nations and Europe also had a programme in collaboration with the big computer companies, the pharmaceutical industries and the environmental lobbies which were falling further and further behind. It was called Agenda 21. Obviously, this agenda which had not been respected for various reasons, notably financial and political, has just recently been converted into Agenda 20-30.

Certainly, beyond the respectable intention in this agenda's foreground, everyone will have understood that it is destined to become a gigantic financial windfall that would only enrich the globalists even more. And that is the problem !

Its conversion opening an opportunity window to create a Eurocracy gathering the big royalty's bankers' corporations, in order to outdistance, then oust the technocrats, was therefore used to announce last summer, this Great Reset.

As you can understand, alliances are made and broken as circumstances require. The industrial pharmacists who worked with the Democratic technocrats joined the Republican globalists. Simply to increase the business and control money "from the future's" flow and the benefits they could derive from it.

To carry out this diabolical plan, the bankers' corporation communicated through the magazine "The Economist", their official press outlet. It was however understandable only by those of the upper elite recognizable to the color codes of their cars and suits ties. This superior elite, either dressed in black and burgundy tie, or anthracite grey and blue tie, has big and powerful high-end cars usually black or gray and armored. This recognition code between bankers, is not just a cliché !

Question to the Angel :

Finally, if it is not RNA vaccines that will be offered to humanity, what would be the point of ordering the vaccination obligation of liquid nanoparticles ?

Before answering, first ask yourselves an essential question : to what extent could a vaccine be used for if everyone is informed that the Covid is almost harmless ?

Ordinary people who do not seek the real information, and therefore do not seek to know, will be affected by vaccination. They will not be able to assert their free-will ! And as they will continue to believe the lies that the official media spread, they will give their uninformed and tacit consent to the first campaigns.

Furthermore, the biblical scriptures (Revelation 13) give the answer ! It says something like :

[...] They will animate the beast's image and the beast will speak all the languages of the world. [...]

[...] Everyone will hear it in his head in his own language. [...]

[...] The dragon gave him his power, his throne and a great authority. [...]

[...] All the Earth marveled, followed the beast and the dragon was loved, because he had given the beast authority. [...]

[...] and they worshipped the beast, for he was given authority over every tribe, people, language, and nation. [...]

[...] She deceived the earth's inhabitants by the miracles that were given to him to perform in the presence of the beast. [...]

[...] She also operated great miracles, until she brought down fire from heaven upon the earth in the sight of men. [...]

Whatever you might think about it, these indications although allegorical written since more than a thousand years, had already prophesied the era of holograms and mental manipulation of your present era. Indeed, liquid nanoparticles have recently been used to produce perfect holograms, not on smoke, gas or water vapor, but without any support other than ambient air. This technology has already been used to delude ignorant observers.

For an overview of this technology shown to the general public :

<https://youtu.be/XSVBWPUJzYk>

<https://hal.archives-ouvertes.fr/hal-01578822/document>

For example, in order to be able to create an individual's hologram, this system uses fragments of his coding DNA, as they contain all the information needed to digitize his physical appearance. These liquid nanoparticles therefore can reproduce all the protein codons and by an extremely precise technology, transpose them into a hologram. It is therefore possible to reproduce an individual's presence in a place, with the perfect illusion of his behavior, to the point of letting observers believe in his real existence.

Liquid nanoparticles are also used in other rather extraordinary technologies. So you can understand that especially in SDS realities, they would represent a wide range of possibilities for the science of future humanity. The principle of nanoparticle technology is

already used to print human skeleton parts into a biocompatible material that could soon replace them, if necessary, in an individual's body.

<http://www.innovatech.be/innovations/des-os-imprimes-en-3d/>

Since there are already much more sophisticated technologies in these areas, even if they soon become obsolete, they will be revealed at the Davos forum by satanist Klaus Schwab as innovative.

Therefore, ask yourselves the question : what is the interest for the satanists to suddenly reveal such advances in science ?

A Sukkal entity (humanoid with a bird's beak) manipulating the bones of a pelvis.
Photo taken on the principle of psychomanteum by refloating in the water of a stream.

First of all, it is about understanding that these technologies are given to them by 4th density entities. They are not of human origin ! Therefore, what will these extraordinary technological revelations conceal ? You probably guessed it : another story of big money and control over the human !

The Davos forum will reveal and promise 3D organ bio-printing for transplants, but its leaders will not reveal that they will use the DNA of volunteers who have been vaccinated

by these nanoparticle injections, for commercial purposes. Their own ends, but also the end of ordinary human beings !

As, by their tacit consent to vaccination, the ignorant individuals' genome will be patented. And once patented, it will become the property of the company ! The ignorant individual will no longer be sovereign, nor will he own his DNA. The company will control the access and the price of the individual's own spare organs, which obviously will not belong to him anymore !

And he will then be obliged to be vaccinated with a pseudo-vaccine, a simple serum containing liquid crystals, in exchange for a guaranteed minimum income and the personal debts' cancellation as this plan is implemented. But in the meantime, amazed by these dazzling technological advances and under the influence of his own fear, he will never be warned of the economic system's collapse, the abolition of pensions, the prohibition of travel or expatriation abroad, that will happen in parallel !

Another announcement that will be made during the Davos Forum will be the famous cyber pandemic, and then its jubilee, which actually consists of a gradual cancellation of debts : student debts, credit card debts, bank loan debts... , while on the other hand, these people who will have consented to sell their DNA for the sake of progress, but ultimately for their own misfortune, will not be warned that large sums of money will be gradually withdrawn from their credit cards. Their existence will then be under the tutelage of the company, which can decide the life and death of the individual.

<https://www.ssi.gouv.fr/actualite/lanssi-et-le-bsi-alertent-sur-le-niveau-de-la-menace-cyber-en-france-et-en-allemande-dans-le-contexte-de-la-crise-sanitaire/>
<https://www.science-et-vie.com/technos-et-futur/il-est-urgent-de-se-preparer-a-une-cyberpandemie-58793>

The ordinary individual will have seen nothing coming and will no longer possess anything. Even his electric car will be given to him in exchange for an authorization licence recorded on his mobile phone. His iPod given with the car, will even automatically

record all his movements to the nearest second, will calculate its salary to the nearest centime, will deduct its rest time, etc.

Built on the principle of holographic and digital illusion, this matrix system will implode somewhere in its future, as its inventors are not like real human beings, endowed with the spiritual wisdom that is given to them when they seek for it.

With this Great Reset, the medical corporations will therefore do everything to force the ignorants to vaccination. However, they will never inform them about the liquid nanoparticles' true role. You should also know that this liquid nanocrystal vaccination system was developed by the "programmed" Bill Gates and his corporation, and will be distributed by its subsidiaries. They have no conscience or human ethics.

It is therefore also to drive, then force to vaccination by nanoparticles, that the treatment with hydroxychloroquine was attacked, then evicted so quickly by the Zionist globalists. So, the only method that the STS entities will still be able to use, is to make use of the forces of law and order, the forces of repression, and the strike force. They will want to vaccinate people by force, gag them by force, using the fear spectrum.

On the pretext of eradicating the Covid and its different mutation forms, the global government will therefore try to impose vaccination quite quickly by trickery, then by force !

But those who are warned will know ! And overcoming their fears, they may be able to make one last use of their free will. Then their own future will be decided !

Last summer, during the Cyber Polygon event <https://www.weforum.org/projects/cyber-polygon>, at the same time as the publication in his book the Great Reset, the satanist Klaus Schwab even revealed to the one who wanted to hear it, that the Covid was not the calamity that humanity and all its medical leaders believed in, and that, at the very least, it was nothing more than a common flu, serving as a perfect diversion for the Grand Reset. At the same time, the Cyber Polygon event was already announcing the theme of the 2021 Forum and its intentions : a cyber pandemic, far more deadly and destructive than Covid-19 and 21.

In reality, this cyber pandemic will be the worst calamity that will quickly send the Covid-19 and 21 pandemic to oblivion. This threat would overthrow and destroy all humanity !

Maybe even that visuals will be programmed in the sky, simulating an extraterrestrial invasion by galactic spaceships' holographic images, as this technology is already recorded in the globalists' boxes ! This appearance of "love and light" galactic brothers has already been widely planned, prepared and recorded in the consciousness of the profane hypnotized by the beautiful words of the New-Age channellings.

<https://messagescelestes.ca/canals-auteurs/>

Question to the Angel :

Thus, in this gigantic organized chaos, the big question that we should ask ourselves would be : where is the hope for humanity to make it through ?

You should definitely understand that according to the Law of ONE that they fear and respect, the STS entities which rule your world, have the formal obligation to honor and consider the human being's free-will.

For this reason, all their plans are already registered, announced in advance and remain available to those who, while sharpening and cultivating their discernment, seek them in the form of knowledge. Moreover, since hope is an unsolved future, all that remains to be taken into account in the equation of the end times is the question of informed consent, free will and Faith !

Then, so that everyone can seize his chance to not only "know" (*sa-voir/it-see*) but "see-it" (*voir-ça/see-IT*) - in other words, see reality as it exists -, the satanists now operate with their faces uncovered. This simply means that even the STS satanists of 4th density, this means the most negative ones, the most odious, the most evil, apply an ethical code to leave to each individual the choice of the future orientation of his soul.

These STS satanists therefore can not derogate from the human being's free-will law, because this law derives from the Law of ONE. And knowing that they would definitively be destroyed, then turned back into black matter if they broke this law or its rules, they have even thought of using the "voices in the head" technology developed by "Cointelpro and the C.I.A", to have all this stupidity channeled by the so-called "love and light" eminent people, via this New-Age channels' nebula, without much intelligence or consciousness. As it is their channelings which have spread all this nonsense concerning the coming appearance of the spaceships of your brothers of the stars in the firmament.

Meanwhile, and since the New-Age programming is losing ground, the STS will attempt to use force. But the current problems will not be solved by force. If the globalists begin to act by force, it will then become the clue that their entire matrix is about to implode. And certainly their system will implode, for they do not have the spiritual strength that is given

to those who seek. As it is only through this spiritual strength, which is nothing else than Faith, the total trust in his future and superior Beingness' guidance, that the human being will find salvation.

Now, ask yourselves another question :

Why has no government ever legislated to contain the spread of Covid ? The answer is that they have been instructed not to do so, as at some point, the Covid-19/21 epidemic will be recognized as an attack or a deliberate assault against humanity.

These protagonists will therefore not be able to be judged and sentenced to death as in the Nuremberg trial, since they did not go through the official legislative process to impose a law. As they are obliged to respect Nuremberg's international criminal jurisdiction, the lying governments have therefore merely published recommendations, amendments, decrees and health regulations. Therefore, they will have left the choice to each individual to make use of his free-will.

<https://www.reseauleo.com/covid-19-la-campagne-vaccinale-experimentale-a-venir-constitue-un-viol-du-code-de-nuremberg-et-une-atteinte-a-l-integrite-d-autrui/>
<https://www.francesoir.fr/opinions-tribunes/nuremberg-et-ses-ideaux-oublies-la-civilisation-est-la-veritable-partie-plaignante>
<http://www.profession-gendarme.com/pour-le-conseil-detat-lattestation-de-deplacement-derogatoire-netait-pas-obligatoire/>

Thus, the National Assembly never met to vote on a law. It always has only voted on amendments ! Meanwhile, most courts have been suspended because of the so-called Covid epidemic and health regulations. No one could therefore challenge or complain, since the executive, the legislative, the judiciary, the essential branches of legal government, had been paralyzed.

As a consequence, nor the magistrates or the judges, nor the medical association could, or wanted to, protest. Of course, all were compromised. Practitioners who tried to maintain integrity lost the right to prescribe and treat, and since corruption has become systematic in your modern society, most professionals have taken refuge behind the authority that represents them !

The Great Reset which is already underway, is an evil strategy paralyzing that paralyzes companies and airlines that no longer agree to hire or take in unvaccinated people.

It is therefore to compensate with their own rules for these alleged flaws in the financial system of the society, that in order to quickly impose the vaccines, the royalty's bankers' corporation of the deep State, called upon Bill Gates and his criminal philanthropy.

And since his production capacity of 20 millions doses per month is not enough to vaccinate the planet, globalists have established priority categories.

If you watch carefully, the lock-down does not only exist at home. It is closely related to injection planning. Most people have not yet noticed that traffic restrictions are established in regions, territories, nations, and finally on the planet !

It is therefore a global war strategy that will propose a slow, progressive "impregnation", and which, thanks to its delayed effects over a few years, will strike and eradicate the genome of modern Homo sapiens sapiens ; that is, on the world scale, that of the ordinary contemporary human being who has never used his free will to decide his own future.

The demons, the “Satans of the territorial administration” did not plan to destroy the planet by a nuclear fire as in the time of Atlantis, **however they plan to contaminate, then prevent the human being’s natural epigenetic’ process, to prevent him from changing consciousness plane, therefore density of reality !**

Finally, understand that the mandatory vaccination’s idea does not really come from governments. Your politicians who would still try and save the people and the planet, are completely lost ! Because through their disproportionate need for power over others, they are entirely manipulated themselves. They have therefore let themselves be bribed by this Zionists’ blue-blood royalty and bankers’ corporation, the Elohim’s descendants in the service of a predatory corpus that wants to take total control of the planet.

It is for this reason that royalty’s blue bloods will propose vaccination with a mechanism of marking by liquid crystals. They would like to be able to track, control and, if necessary, exterminate all those who do not meet their criteria. They will then be able to target more easily and specifically, with their directed energy weapons, the people who let themselves be vaccinated by these tracers. (remember that by not awakening to seek for Knowledge, they have given their consent !).

The STS of 4th density therefore have the objective to collect the DNA of the most submissive, the most fearful people, to send them on other 3rd density planets, so that they continue to remain their slaves, docile lambs and sheep of the gods. Is it not curious

if certain firms are studying 3D bio-printing in order to support the medical treatment of long-term spatial expeditions and planetary colonies ?

A ESA-led project is investigating the use of 3D bio-printing to support medical treatment of long-duration space expeditions and planetary colonies. Leading experts in the field met at ESA's ESTEC centre in Noordwijk, the Netherlands, for a two-day workshop in September 2018.

In the same way that standard 3D printers use plastics or metals to build three-dimensional objects, 3D bio-printers use "bio-inks" based on human cells, as well as the nutrients and materials needed to repel body tissues such as skin, bones and cartilage. Temporary "structures" can be printed at the same time to ensure stability and optimal physical conditions to promote reconstruction.

https://www.esa.int/Space_in_Member_States/France/De_la_peau_et_des_os_imprimees_en_3D_et_a_l_envers_pour_les_humains_qui_partent_vers_Mars

It is therefore now very coherent that in this end of times, the American people rise up ! However, their uprising is constrained by the resistance of a collective unconscious, who does not want to participate anymore in the karmic plan of this Adamic cattle, that the 4th density STS authorities have planned to propose them. And it is because the masquerade is almost over and that corruption will soon be revealed, that the system will implode on itself, as through a wormhole, to reform on "the other side" into a new reality. And it will retain in the ancient, ordinary humanity, God's lambs, the cattle become sheep.

It is also when the beginning and the end (the alpha and the omega) meet, that the STS and STO harvests will take place. Each one has fulfilled his role wonderfully, so that a part of humanity can be propelled towards a new density of consciousness, therefore of existence.

Wheat will then be separated from the chaff and used as green fertiliser in the next cycle. Nevertheless, the day will also come when the STS entities will need certain allies among humans, able to forgive “**in full consciousness**”, the roles that they have played.

Some of them will apologize to those they have offended, mortified, wounded, humiliated and destroyed.

When this time comes, would you be able to sincerely forgive your 4th density's predators, amnesty your politicians, the members of zionist's deep State, while remaining emotionally detached and objective, and while thanking them for having been your teachers ?

**As this forgiveness will become the only sesame
to access the frequencies of the worlds of the Service to Others - STO !**

Then, will all of the human beings be able to ?

Certainly not ! As it will only be when they have understood the difficult mission that these STS entities have granted themselves, that some will be able to do so.

Contrary to appearances, these STS entities have more ethics than the ordinary human being who persists in staying asleep, although all the Apocalypse's trumpets sound head-on. For it is only by his spiritual strength, forgiveness and Faith, that the human being will find salvation. Not otherwise !

In short, will the scenario already inscribed in humanity's current timeline be realized, or will it remain suspended in antimatter as a sinister potential ?

Maybe that everything that is said in this text and that is planned by the Great Reset, will only partially happen for some, or even maybe never for other ?!

It will depend on the consciousness of each one, and how he makes use of his free-will, to decide his future.

Would it then not be for human beings, enjoying the force of their free-will, to decide ?

What is above is like what is below, and what is below, is like what is above ! Will the miracle of one thing be accomplished yet again ? He who lives, will see ! And he who sees, will live !
