

## CHRONICLE N°7

### An alien invasion : the next step of the plan ?

The network's readers may have already understood that the announcement of the second lockdown ordered alone by Macron and his Prime Minister is not only an insult to the French Republic and its constitution, but it also signals the beginning of the second phase of this gigantic staging to make "exfiltrate" in a pseudo coup d'état, the President and his government by the henchmen of those who set them up.

<https://qactus.fr/2020/10/31/q-scoop-message-urgent-de-remy-daillet-w-alerte-coup-detat-mondial-on-ne-bouge-pas/>

Just like Hitler in his time, Macron had been propelled onto the French political scene by Nazi Zionist agents, who had to falsify the result of the elections to establish him in power in 2017. This kind of sleight of hand was again played in the United States, where the Zionist corpus rigged the vote so that Joe, their favorite puppet, could also perform.

<http://www.profession-gendarme.com/lantenne-nicoise-de-la-cia/>

<http://clearlook.unblog.fr/2020/12/07/lantenne-nicoise-de-la-cia/>

In France, it is envisaged that the President (man) will soon disappear from the political scene, probably in a coup d'état just as planned as his « coronation », organized by this same corpus. Exfiltrated, like Hitler in his time by the « nazi secret services », he would most likely be replaced by his clone, so that he could pursue his presidency until insolence, then when the time came, be condemned and dismissed in his place, or worse.

Meanwhile, the proclamation of this second lockdown launched the countdown of the « Great Reset » which, as had been decided during the World Economic Forum in Davos, would consist first of replacing all the world currencies by the Phoenix. In the longer term and at another level of reality, this reset (or Big Bang) will continue with a progressive but total reformatting of the overall consciousness of the population, which will have the effect of erasing certain memories of its existence in 3<sup>e</sup> density.

Directly initiated from the 4th density, this new start will probably occur after gigantic electrical failures due to the cataclysms and will result in the cessation of the old matrix codifications, then by the « loading » new psychic programs activated in human consciousness.

For a long time already, the outline of this agenda has been registered in *The Protocol of the Elders of Zion* (of the Zionists).

or in *L'Aurore Rouge* (meaning the Red Dawn) by Serge Monaste :

<https://www.resealeo.com/l-aurore-rouge-devoilee-par-serge-monast-et-pere-regimbald/>

This means, in reality, that almost all the leaders of this world and their subordinates, are only victims of various movements of manipulation of their conscience, which would lead them to want to destroy humanity !

Covid-19, then 21, would be the means given to them to exploit the biggest false flag attack ever perpetrated against human civilization of the surface.

We should then ask ourselves : who is hiding behind all these plagues ravaging modern humanity ? Who are the instigators of these so-called « Covid » pandemics and their rosaries of calamities so carefully arranged in global disorder ?

(See also on this subject, the [Notebook n°27: The Aryan Zionism : a programming for the end of times & The genetic of renewal or the 4th density's ethical genes' era & The Palestinian cause will prompt Zionism's destruction](#)

<https://unfuturdifferent.jimdofree.com/traductions/anglais/>)

We know that the Illuminati Cabala's members, that is to say the Aryan extremist Zionists, the true leaders of the planet's deep State, are the proven perpetrators of most of the attacks perpetrated in the world by their henchmen, programmed to kill, too. And it is not the Muslims as they would still want us to swallow it !

<https://www.linternaute.com/actualite/societe/2491885-attaque-au-couteau-a-romans-sur-isere-un-attentat-le-parquet-antiterroriste-saisi/>

Or abroad :

<https://qactus.fr/2020/11/02/q-scoop-alerte-vienne-attaque-terroriste-en-cours/>

<https://reseauinternational.net/autriche-lattentat-terroriste-sous-faux-drapeaux-de-vienne-commandite-par-les-services-speciaux-francais/>

Obviously guilty, are the perpetrators of these attacks really responsible for their actions ?

People a little less stupid will of course have understood that the resurgence of attacks and knife attacks, especially during confinement, already demonstrates the failure of the fable of « Covid » and an ongoing permutation of the social censorship mechanism. Since they are programmed assassins Greenbaum or MK, whose psychic programs have been activated by specific triggers, who have been tasked with laying down these other control devices, in order to continue to deceive the people. These programmed are also victims of psychic manipulations developed by the Zionist specialists of this branch of the deep state from Mossad.

We can therefore understand why, at the behest of the Zionists, Macron entrusted the unlockdown to the BAIN company, an American annex of the Mossad led by Orit Gadiesh. The latter, an Israeli-American business strategist, is the current president of this management consulting firm. This company, active all over the world, is renowned for defrauding governments.

<http://djamazz.centerblog.net/6604052-le-deconfinement-des-francais-a-une-annexe-du-mossad>

The members of world governments, all profoundly backward by their psychopathic genetics and obedient to the directives of the deep state, are therefore also in a certain way victims, since very few of them really know who is driving their mind and ruling their thoughts. They do not understand that they are not the masters of the world as they imagine and as their fragmented psyche does not cease to let them believe.

<https://www.reseauleo.com/les-dirigeants-de-la-lignee-des-archontes/>

Because, like Macron who expressed his allegiance to this « thing » in his famous interview in where he said : « There is a dimension of spirituality, the conviction that there is a transcendence, something that goes beyond, that goes beyond you, that preceded you and that will remain. », the members of the Deep State, they too, have apparently still not grasped the nature of this « thing » !

<https://youtu.be/tMpXAW7Kb34>

Clearly, Macron is the disciple of a master whose identity he does not even know. Maybe does he serve him only, even foolishly, in exchange for a place in the sun in 4th density ? Would he not have understood that « the Beast » is much more than a biblical, Koranic, eschatological reference to artificial intelligence ? It is not just a demonic symbol like the 666 number, which is simply part of the equation of the end of times !

<https://www.youtube.com/watch?v=tmCEWEMPgpU>

In short, who would be his real master ? Is he the same as the Zionist great initiates' one, the one they call King of the Jews or Governor of the World and who would supposedly comes from « the Holy Race of David » ?

This biblical hero, patriarch of the tribe of Judah and second king of Israel, is presented in the eschatological narratives with his son Solomon, as one of the two founders of the ancient state of Israel.

In reality, this hero would personify a group of hyper-dimensional entities of the Service to the Self, that is to say humans of our planet who now inhabit the intraearts - one of the realities which in the past was densified on its surface and which currently, would still be managed by extraterrestrials of 4th density and psychic entities of 6th density from Orion. The Sumerians already knew them in their time under the name of Anunnaki, reptilian entities « disciples of Enlil / Set ».

The effigy of the demon Enlil / Set  
on a crest of the  
61<sup>st</sup> Artillery Regiment

Freemasonry has also used their symbol : « the all-seeing eye », in reference to this biblical episode. Sometimes displayed during large public events in more or less disguised forms, it means : you are letting yourself be programmed !

Hostile to these fanatics brandishing Sauron's eye (which would somehow represent the symbol of the Illuminati group loyal to Soros), President Trump and his Republican sympathizers, would be they, the supporters of this famous water carrier announced at the end of the era of the Pisces. In other words, it would be the entities inaugurating the era of Aquarius, faithful to Enki Ea/Horus who, in our time, would mandate Trump to save humanity from the trap set by Enlil : the « God » and Master of the Satanist extremist Zionists.

To be able to accept this idea of temporal interferences, we should have in a corner of the head, the notion of linearity of time proper to our 3<sup>e</sup> density world ; obsolete notion in the worlds of higher densities in which space-time would seem suspended or eternal.

We must therefore not be surprised that the event which the « Christ » had announced in these symbolic terms of the coming of the water carrier at the end of the Pisces Age, explains all that is the opinion, or the guilt of humans about their personal history. Since « Christ », or « Kiristi », meaning « ardent sons of life », or « those who live their lives ardently learning from their experiences », is an allusion to the experiments of a secret group of hyperdimensional origin more and more active on our planet and who has knowledge of the Sumerian texts and the history of Enki EA / Horus and Enlil / Set.

This group, however, not being a disciple of either, and probably knowing that he himself was « the father of many things on Earth » and that his spirit was awakening and remembering, because his consciousness was now distributed and embodied in human bodies of 3rd density - this corpus then became able to tap into the morphogenetic field of the current humanity.

The world proper to Enki EA/Horus was the Absu (or Apsu), the « freshwater » space that surrounds the Earth and acts as psychic support (or psychomanteum), would now allow him to recapitulate his cycle of incarnation and free himself from the karmic memories of humanity to become « Christ ». And by collecting the data of Knowledge in this memorial field, this corpus was henceforth able to reconstruct the truth concerning the history of man and to recapitulate its cycle, in order to lead to change of density, those who with it have accomplished this work.

It can therefore be only disconcerted by the fact that the « Christ » announced the bearer of water at the end of the era of Pisces, which would explain everything about the judgement and the history of men...

This corpus of « Christ(s) » had knowledge of the adventures of Enki EA/Horus, since he would embody his descendants. And apparently, he also knew that he was "at the origin of life on Earth, long before the presence of men". Between the era of Pisces and the era of Aquarius, this corpus now sails all sails out.

The symbolism of this picture is described in the [story of Jenaël](#)

These souls awaken and remember, because the Spirit of this circle containing the entire Alpha to the Omega story, had the strength to collect the data that its members could find to gather the truth. And particularly attached to the history of humanity, this Christ Spirit could not be extinguished, since this is how love of the truth progresses when one tries to suffocate it.

It would therefore be necessary for all these people, still ignorant, to begin to understand once and for all, that to try to manipulate the spirit of a people rewarded by this Christ consciousness, one would have to show infinite patience, what clearly when they interfere in earthly affairs, these hyperdimensional STS entities do not have !

The ones we are talking about, evolve in 4th density of the Service to the Self. But since they prefer to stay in their world, where space-time is non-linear, they are not concerned with how our space-time is measured. They can therefore remain trapped in our density if they penetrate it ! And one day, they will try to enter it.

This is why their plan to capture the planet began long before the Napoleonic conquests or the World Wars ; the latter being only sketches to refine the elaboration of the current chaos.

Their plan of domination was to prolong delirium, until people accepted it. In general, even if it seems completely absurd, this process works, because it has often been proven. The more it is exaggerated, the more the general public will be led to believe it. In other words, the bigger the lie, the better it passes. He had to go through all these "New

Age's love and light" authors who, without exception, are programmed individuals in order to program in their turn.

We keep saying it : called by love and light, like butterflies or in the legend of Icarus, many will be called, but the wings will burn. Since will be "harvested" only the individuals motivated to tirelessly deploy a true inner work which, alone, is capable of changing the reality of our outer world.

This is why we constantly insist that the work of collecting and exchanging « this Knowledge », carried out by this group of entities scattered on the planet, has initiated the ongoing paradigm shift.

On the other hand, the entities affiliated to Enlil, a corpus which still exists on Earth in the modern era in the form of occult brotherhoods pretending to be benefactors of the planet, are about to lose their battle. This corpus represents the Ahrimanic way of the Service to the Self, of the Antichrist, of debauchery, of the scam. It represents these soulless individuals, pedophiles and sexual slaves' traffickers, who have obtained from the STS 4th density, the technology to penetrate the thought of personalities, above all political, so that they may become their instruments to accomplish their foolish things.

Also, as those who know probably have already understood, the announcement of an extraterrestrial landing came to save humanity from its inextricable chaos, is supposed to crown the whole. When it appears on the front page of the news, it will confirm the end of humanity in its present cycle. The hidden agenda of its disclosure has been ongoing for a long time, because it consists of a slow drip of information that must gradually grow. So again, it takes a long time to get people programmed.

This endless disclosure agenda is confirmed by numerous sources, including the famous Dr. Steven Macon Greer. For those who have just opened an eye, Dr Steven Greer is a

retired US ufologist and traumatologist who founded the Study Center and Extraterrestrial Intelligence Disclosure Project (CSETI) and who seeks to divulge allegedly secret information about UFOs. But, he as well, is instrumentalized not to tell the whole truth about extraterrestrial or extranean reality.

<https://www.youtube.com/watch?v=Gb8-FGdPQzc> (in English)

<http://www.ovniparis.fr/videos/ufologie/ovni-the-disclosure-project-vostfr-version-comple-te.html> (subtitled in French)

In a completely different genre, the famous book « Bringers of the Dawn » of his no less renowned author, like many other promoters of the delusion « love and light », contribute each in their own way, to this slow but clever agenda of disclosure.

Shall we repeat it again ? For years, this false disclosure has been used to program in the minds of the followers of the New Age and the general public, this fable of extraterrestrial rescuers. Aliens are portrayed as « more advanced big brothers » who just want to help us along our evolution with more advanced technology. In this alone, their intentions do not respect human free will !

We could even submit the idea that some extraterrestrial entities arrived on our planet via panspermia\*. This absurdity has been invented by Darwinian scientists, since we are aware that among these time travelers, some are us in the future and we are them in the present.

(\* Panspermia is a hypothesis, according to which the origin of living organisms on Earth is an extraterrestrial « contamination ». These would be transfers of microscopic living organisms or molecules that make up organic matter through space, thanks to comets for example. Wikipedia)

So we're not necessarily extraterrestrials in the accepted sense. If some of them have returned from our future, they do become time travelers or extranean. (cf. [LEO Dico](#))

But we also know that some of them can manipulate our thoughts and emotions, to make us feel that they are filled with love and compassion. We might then expect that, when the

time comes, the ignorant and fearful masses of human beings falling into the trap will willingly rush towards their destiny, as the cattle are docilely hurrying towards the slaughterhouse.

So it doesn't mean that aliens don't exist, or that the extraneans aren't real, or that there won't be a mass landing, etc. But this would confirm the possibility that the human race was created for a multitude of cross-purposes, both STS and STO, in order to offer learning opportunities at multiple levels. Once again, the truth may be elsewhere !

Our 4th density's operators would like to keep us trapped by the subterfuge of an ideological, materialistic prison centered on the « physical body », for their own viability as species. This idea is rooted in a multitude of pious beliefs, since the purpose of creation is obviously much greater than their ideal.

It would therefore be to strengthen this prison, that this plan of manipulation of peoples' psyche, which extends over more than half a century, exceeds perfection and understanding. Literary, media, cinematographic, scientific, political or military maneuvers have led ignorant and stupid humans to believe that hyperdimensional entities are either hostile or benevolent. Even that all this beautiful world dressed in "love and light" glitter costumes, would come to help humanity come out of the mess for which it alone is responsible !

The cute little Greys are there to help us, the evil reptilians are driven out of the solar system. We risk nothing, because light beings such as the Ashtar Sheran fleet or the galactic federation of light beings, will come to help us. Love and light to all and basta ! None of this is true ! Poor human deluded and ignorant ! A proverb says : « the most despicable lies are those that come closest to the truth ». (André Gide)

There is a truth, but it is not as it is presented by the Disclosure Project or in the « love and light » literature, since this agenda of disclosure is orchestrated by the aliens of the Service to the Self themselves. To do this, they use human mediums intimately convinced of the veracity of their channeling.

A landing by these beings from other densities and dimensions is more likely than expected. This is also what the Cassiopaeans tell us. But let us not rejoice, since the entities that truly support us have always suggested that they respect human free will and his own process of evolution. We must repeat it : they will never be revealed, even though they are very influential !

Cf. Dialogues with our Angel n°32 and 33:

<https://bienvenussurlanouvelleterre.jimdofree.com/2014-dialogue-32/>

<https://bienvenussurlanouvelleterre.jimdofree.com/2014-dialogue-33/>

This would then mean that if it were a question of an extraterrestrial landing, it could only be manoeuvres arranged by the operators of the Service to the Self, since they will pass over the free will of humanity. Knowing this, it is quite easy to understand what is clearly emerging at the dawn of the new era.

We have, however, questioned our own future self about this.

**We are well aware that the split between worlds has already begun, since we see every day that more and more people do not believe in the discourse of our governments/« govern-liars »<sup>1</sup>. But it also seems to us that this « spectacle » will persist for quite some time, to prevent ordinary people from perceiving that another reality is already emerging.**

**Will we ever see the end of this comedy ?**

The lie now exists in every stratum of your reality and there are many reasons for that ! But, in order not to aggravate the cognitive distortion of the ordinary human, in other words not to further confuse the minds of people and so that the truth may also be revealed at all levels, the unveiling of the replacement mechanism of human thought must be brought to light with caution. And in your density of reality, this process takes a long time !

That said, it is true that anger growls and that it becomes more and more noticeable. The peoples of the planet are distressed, as they begin to understand that they have been betrayed by their leaders. But the latter, the elites so focused on Darwinian materialism, in which they had given all their certainties, are going to get a return of « cosmic » stick that will simply, annihilate them. Their stubbornness in not wanting to understand the reality in this world and even less in that of the other planes of reality, will lead them definitively to their loss.

Humans always lay their own responsibility on their leaders, when it would be enough for them not to oppose them, but to accept to be different from them. Ordinary people do not even try to understand what their reality is. For example, very few people know that Macron was not legally elected in France in 2017, while the whole world, with its eyes fixed on the American ballot box, is appalled by discovering the implausible scope of the electoral fraud system « across the Atlantic ». And as far as the peoples agreed to see what was going on on Earth, they still did not understand that the earthly changes, consistent with the periods of cosmic disasters, are part of the natural and legitimate cycle of humanity, by responding, for example, to the disorder caused by these rigged elections.

---

<sup>1</sup> Referring to the goslings language, the french word « le gouverne-ment » can be divided in « gouverner » and « mentir » which means « to govern » and « to lie ».

As long as the individual does not make the decision to start a real work, in order to change his world and not to change the world, the reaction of nature to human madness can be expressed only by climatic and cosmic catastrophes which, in response to his denial, will grow even more.

Every human being has the great chance of being born human. Because by his free will, he still has a real possibility of choice. He has the power to act differently from what he thinks he should do. But generally, fear makes him use it only for trivia.

Those who do not understand where their free will lies, will therefore be forced to make increasingly painful experiments, since, as we have often pointed out, hyperdimensional entities, whether extranean or extraterrestrial, are obliged to respect this free will resulting from the law of the One. Flowing from the Creator Spirit, free will remains proper to every creature evolving in his world.

Just knowing that the Knowledge of the law of One, recommending the recapitulation of your past and future experiences, would preserve you from hyper dimensional influences, it is very likely that these entities that sometimes arise through dimensional windows in human reality, are fake aliens who will soon emerge from underground. Possibly also, that at the moment of the changeover, the Nephilim, Anunnaki, Ilojim (the real aliens), will land from space !

### **Question to the Angel :**

**Isn't it precisely so that humans can accept the idea of the presence of extraterrestrial biological entities on our planet that this disclosure program has been developed ?**

Precisely, and it's not just for that reason. A large-scale invasion is very likely. It is already organized, but will not happen as ordinary humans imagine. It is necessary to know that the Greys and the Lizzies are creatures that « ordinarily » do not exist in the reality of your world, since they vibrate in 4th density. However, some of these entities can make rapid inroads into your 3rd density, on condition of always going back to 4th density to revitalize themselves.

This is why the Lizzies created in addition to the Greys, kamikaze-slave entities without consciousness, able to survive in very low frequencies in 3rd density. Ilojim or Elohim are one of them. They are the agents or executors of these gods of Orion, of which all the holy scriptures speak, and are spirits of 4th density which, in a way, exist and live by proxy in bodies of 3rd density, during the worlds' transition period. In recent years, with

nearly 300,000 individuals, they mostly hold positions of responsibility in the human society.

<https://michaellanglois.fr/questions/que-signifie-elohim-y-a-t-il-plusieurs-dieux/>

Since then, their mission has been to maintain vibratory resonances of very low frequencies – constituting the lower astral – in order to create an environment conducive to their « landing » in their true appearance. So the descent into your reality will happen, when the programming is over and the conditions are right for them.

To do this, possessing intelligence – even if they have no consciousness – they understood that in order to maintain themselves and remain in 3rd density, they had the possibility of sustaining themselves of low frequencies coming from human terror.

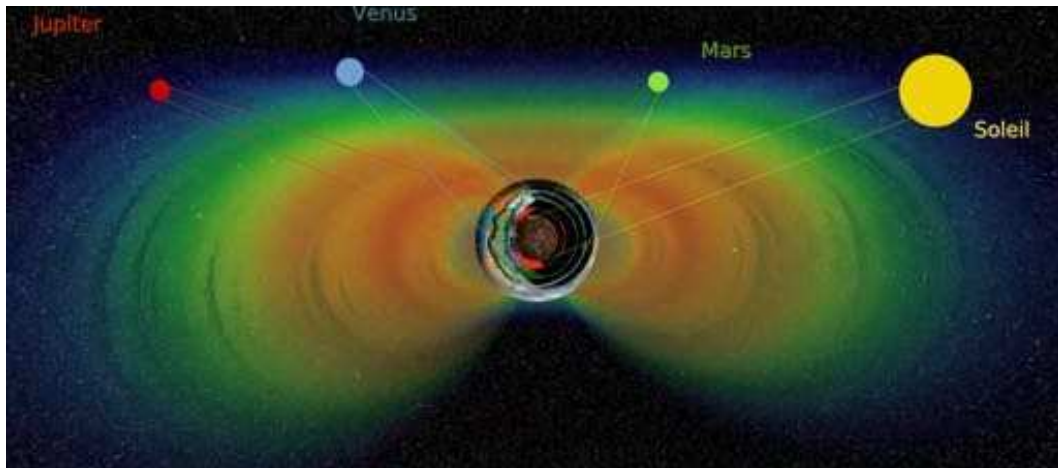

Also, taken from these millions of children martyred and terrorized by the elites in pedophile networks, the adrenochrome has helped them until today, to bear the progressive rise of the terrestrial vibratory frequency. ( Cf. [https://www.youtube.com/watch?v=h8DVpp\\_Fjr4](https://www.youtube.com/watch?v=h8DVpp_Fjr4) ) That means, of course, that the alien invasion of your planet has been going on for a long time.

But in the near future, as they enter your 3rd density world with their bodies and become giant and clumsy, these kamikaze entities will also have to prepare to die. Their planned landing in their real appearance, is the event that the Zionists and all the enlightened « love and light » eagerly await. Having not yet understood how to save themselves, they expect to be saved by the gods in person !

As the first beings to present themselves to humans will probably be the Aryan Nazis of the underground worlds of Antarctica (Schwabenland), dressed in their light uniform, it is important to remember that these illustrious « brothers of light », these famous inhabitants of Telos, Agartha, and other cities of the Hollow Earth, are not all nice « Adama » as they claim to be. Simply because they will arise from karmic densities of realities, coming from the Earth's past. They thus represent all these peoples « of the future », still hidden in unresolved retrocausality loops and who sometimes return to their past to resolve them.

The matrices of the different planets of your solar system, therefore, depend on the consciousness that vibrates and emanates from the human observers (or not) that compose it, knowing that the animal and vegetable kingdom also participate in « vibrating » their creation.

These matrices therefore represent in a way – like the principle of Russian dolls – densities through which wormholes open onto other densities. Which then means that through the lorgnettes of the higher densities, you would see the planets of your solar system quite differently.

The different density matrices of Earth reality :

The black sun (Jupiter) composed of antimatter (metallic hydrogen/liquid/gas), is at the center.  
 Then, are superimposed by layers of consciousness, Saturn, Venus (the Venusians), Mercury, Mars (the Martians or « intraterrestrial »).  
 And finally, the density expressed by the consciousness of the present Earth :  
 the Earthlings inhabiting the outer mantle.  
 Will soon appear a new layer on the surface of the earth plane.  
 It is already visible through infrared telescope in the Van Allen Belts.

But the human, endowed with a linear consciousness of 3<sup>e</sup> density, remains unable to perceive all the planets of the solar system (ground-air<sup>2</sup>) with its inhabitants, since these planets already vibrate their life in 4<sup>e</sup> density, creating their own biotope, precisely through the global level of consciousness of its inhabitants.

These inhabitants of your solar system, since they evolve in densities higher than yours, are therefore all aware of your existence in 3rd density, since they « populate » it themselves on other planes of reality in space-time.

We propose here a small parenthesis to clarify the subject of densities.

Professor Marc Henry's explanations would imply that the different densities of Earth's reality, would be explained at the biological level by quantum entanglements which admit for example that :

« In the living, objects with a mass less than 7 kDA (kilodalton) are wave packets and not corpuscles. So at this density level, the influence of time would be zero.

---

<sup>2</sup> In french, le système « solaire » can be read « sol-air » which literally means « ground-air system »

In nature, no change can bring into play an action lower than the Plank quantum. In other words, there is a constant that has the dimension of an action, that is to say an energy that multiplies a time. This constant is not null. If it were null, we would still be in the classical world [of the 3rd density?].

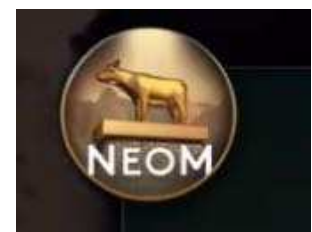

Because it's not zero, we're in a so-called quantum world. And it doesn't matter what its value is. This constant must be different from zero, that is where everything starts ! »

<https://www.youtube.com/watch?v=FrombXDhPLA>

So far nothing extraordinary. But it is also there that these quantum mechanics will soon have surprises, because when they observe this « quantum world » as scientists, they still do not take into account that they themselves are camped in 3rd density, using their linear and narrow 3rd density consciousness.

Soon, the consequences of the increasing penetration of the frequencies of the 4th density which, above all, derive from influences expressed and reinforced by the psychism of much more advanced consciousness, will render some of the laws of quantum physics of 3rd density, completely obsolete. And it is precisely through the consciousness and ethics of some of these « scientific observers of experience », that this infiltration of the frequencies of 4th density, will call into question some of the « gravitational » forces of this quantum mechanics.

Professor Marc Henry touches upon the idea of a possible interference of the energy of consciousness only at 37.18 of the video, that is, when he finishes the lecture. Would it also be instrumentalized not to tell the whole truth ? Notice the logo of the organization that broadcast its intervention. Does it not look familiar to you ?

(Cf. [Le cahier de l'Ange n°19 : Les codes de la 4e densité](#))

\*\*\*

So, let's go back to our extraterrestrials who would emerge from space in a more or less near future.

Traveling great distances through time and space in search of a world conducive to conquest, and then from immense ships moored in orbit of certain planets, they have built bases for patiently manipulating the selected civilizations, in order to develop an

infrastructure that technologically and « vibrationally » suits them. Then, after the implementation of a long, slow and great project of mind programming, they would intervene to appropriate the planet.

The day will come when these Elohim, beings of more than 4 meters, with no consciousness, but possessing a fantastic technology that would annihilate the earthly armies in a few moments, will terrorize humanity, because no one - except maybe for the Zionist top leaders - had been prepared for their meeting. And since all these ignorant people (including the armies' soldiers of the planet) will remain trapped in their world that they will try to defend until the end, no one will know how to defeat them !

The most ridiculous part is that the elite that governs our modern world with its high-tech military and « AI » industry, and that led it to back-engineer an « extraterrestrial » technology to hide their presence, is persuaded to be at the forefront of the progress of humanity today. While in the vanguard of a civilization deeply asleep under thick layers of denial, it will remain perfectly incapable and inoperative in the face of the invasion.

It is therefore necessary to understand definitively, that these invaders coming from 4th density in which other quantum laws apply, have an Achilles heel that only a real quest for Knowledge is able to detect.

It also means that when the Nephilim/Elohim land in the flesh on Earth, beings of 3 and 4th densities will populate your planet simultaneously ! And the only way for humans to escape their authority, will be through « the White Rabbit hole of Alice ».

Of course, this allusion is a metaphor whose meaning has not escaped the alchemists ! In other words, Knowledge will protect the one who, when the time comes, masters it ! The whole humanity will have to face these entities of 4th density which, too, will become mortal when they pass through the dimensional gates of your world of 3rd density.

And how to face them ?

By deciphering the hidden meaning of the legend of David crushing the giant Goliath, and by remembering that these entities of 4th density are obliged to respect the individual consciousness ethics and the individual's free will, rather than the force and military power.

These invaders will most likely be « accompanied » by a humano-reptilian STS coalition that populates the worlds within the layers of the Earth. These so-called Martians or Venusians, civilizations centuries ahead in terms of technology, are also much more advanced than ordinary humanity in psychological know-how.

**Question to the Angel :**

**This invasion by all these Elohim, Gris and Lizzie, paints a very dark picture for the future of humanity. Is this where the allegation : « Many are called, few are chosen » from the Parable of Matthew, would really make sense ?**

When this sentence is formulated, it resonates in the collective unconscious and triggers anxiety. Therefore, this means that the time has come so that, in the consciousness of the human incarnated in 3rd density's worlds, a signal triggers, rekindling then the intuition of what is happening in the unconscious of those who have chosen to be incarnated at this epoch. Obviously, because history will repeat itself again and again for those who do not believe in it !

In the scriptures, God and Elohim are one ! Considering then the « ultimate fight between good and evil », as reported by the religions, this final but silent battle of two rival STS factions against the STO consciences, has definitely become a psychic war for the domination of humanity's collective consciousness.

It is important to know that there are more than one group that have traveled in their space arches to conquer the Earth before it changes density ! So there are indeed enemies of humanity that will overwhelm it with military technology and artificial intelligence (AI).

But there are also your guides, your future Self of 4th density and STO reinforcements of 6th density, in other words many individuals, including sometimes among them Tall Blond Guys or Nordics, who also travel through space in this kind of arch. And it is all these entities that have long supported you to do an inner job, so that you are no longer involved in the STS battlefields.

The STO of 4th density will still deploy this aid for some groups of 3rd density, but you must continue, without fail, to accomplish your part. Keep in mind, however, that the invasion will occur after the wave. At that time, many of you will already be in 4th density and will instead have to confront the Nephilim at the psychic level, while those still in 3rd density will have to fight them especially at the physical or material level.

So there are reinforcements in all the camps, like the Amasutum which had crossed a door between densities or observers like Eck, who came to visit Jenaël to evaluate his vibratory frequency. (Cf. The Story of Jenaël)

Eck (on the right)

Some of you may sometimes remember dreams of space travel in arches that sometimes had the shape of gigantic transparent air chambers. These arches were populated by « extraterrestrial » and hybrid volunteers to support humanity in this « final battle ».

Cf. Extract from Dialogue with our Angel n°32.

These gigantic mother ships containing real eco-systems, quite similar to those on these images, are sometimes moored in orbit around certain planets. Remaining far removed from the influence of their space-time field, the life expectancy of their occupants is considerably extended.

**Question to the Angel :**

**What is the future of these groups of individuals who have opened this path of the quest for Knowledge for the earthly people ?**

Fourth track schools, such as ECOLEO, exist only for the purposes of the work that is done there. It will therefore not last long for the purposes of education and instruction, since it will end as such at the arrival of the 4th density. But whatever the main purpose of your work is, you have come together to do spiritual work first and foremost. Your training « in the matter » will only have been the means to complete your progression. Its renovation was inspired to prepare you for events that are now imminent !

It is therefore very important to detect in the news, all the signs of this final battle of which the American elections are only the first ones. Be aware of it !

« Your » school will continue to exist as long as the spiritual work continues. Once completed, it will no longer be necessary and the people who initiated it will leave the scene to change density. Those who will still be taught there and who will have learned what it is possible to learn, will continue their journey independently and perhaps, will they then begin their personal work ?

So you probably won't have time to complete your project in the present reality. But don't be disappointed, because it will be worth it !
